ABOUT US

The World of TAITON provides you with the Largest and most Comprehensive product range which has been intelligently crafted to suit the modern Hi-tech commercial and residential establishments. We have a rich tradition of manufacturing and distributing high Quality Architectural Hardware which meets and exceeds expectations.

The tradition has inspired us to foray into diverse fields of premium & exclusive products to decorate your interior spaces. Our diversified product portfolio is strategically divided into 9 verticals. In the current dynamic world infrastructural development is witnessing the rapid advancement, hence, there is a requirement to continuously innovate the products utilizing latest technologies to offer solutions that match perfectly to the need of modern customers.

Being a Quality conscious firm, we never compromise with Quality of our products. For that, we conduct an elaborate research on the materials to be used and the prevailing market trends. We ensure that our products undergo strict quality checks on various parameters like durability, finishing and robustness before they are delivered to our customers.

TAITON will keep challenging itself in the new era, dedicating to supply more beautiful and high quality products for a better living. We offer prompt & courteous delivery of our products and efficient customer service.

Exceptional functional & technical expertise coupled with extensive industry knowledge makes TAITON the ideal choice for implementation of your desires into reality.

SPIDER FITTINGS

Spider systems are used to create spaces with minimal visual weight. Spider fittings are designed for mounting glass to walls, posts or other structural substrates with minimal visible connections. Manufactured from stainless steel 316 grade and 304 grade, available in two finishes : Satin Stainless Steel and Polished Stainless Steel, Spider Fittings Support the four glass corners and keep the glass panels leveled, can be placed within the building, with only a small flushed screw on outside which results in completely smooth outer view.

SPIDER FITTINGS WITH FIN

SS 316

Finish: SSS (PSS available on demand)

Specifications:

- Installed with routels
- Teflon washers prevent glass damage
- For ceiling/wall to glass installation

- Standard color: Black Matte
- Material: SS 304

TMAX-S4102

Double Sliding Door Shower Cubicle

- Door opening can be done in dual direction, more humane.
- Roller Inclined plane design for noiseless operation and durability
- Innovative dust-removal track wheel design.
- Glass Crystal embedded frame, trendy and elegant.
- Integral buffering and wheel design reduces buffer noise and vibration, and reduces resistance
- Standard size: 1600x2000mm (customization available on demand)
- Standard glass thickness: 10mm
- Standard color: Rose Gold inlaid with Crystal
- Material: SS 304

TMAX-S8401

Sliding Door Shower Cubicle

- Dustproof and quiet track design
- Beveled design of the pulley is quiet and durable
- Customized design hanging wheel and fixed towel bar
- Standard size: 1600x2000mm (customization available on demand)
- Standard glass thickness: 10mm
- Standard color: Black Matte
- Material : SS 304

TMAX-DL2C02

Double Sliding Door Shower Cubicle

- Door opening can be done in dual direction, more humane
- Hollow square rounded corner hanging clips, stylish and luxurious
- Slim hollow long handle, can be used as a towel bar, sleek and simple
- Standard size : 1000x1400x2000mm (customization available on demand)
- Standard glass thickness : 10mm
- Standard color : Green Bronze
- Material : SS 304

TMAX-D5301

Swing Door Shower Cubicle

- 'Balance beam' structure design hinge in the middle to prevent hinge sinking
- Etch carving and rose color electroplating on all hardware
- Angle line combination design of handles
- Back water tank design at bottom of door to completely separate wet and dry areas.
- Standard size : 1000x1000x2000mm (customization available on demand)
- Standard glass thickness : 8/10mm
- Standard color : Green Bronze
- Material : SS 304

TMAX-D5601

Swing Door Shower Cubicle

- Built-in hinge design, beautiful and not sinking
- The glass is simple and framed, with a strong Nordic style
- Door can be opened inside and outside as per requirement
- Standard size: 1000x1000x2000mm (customization available on demand)
- Standard glass thickness: 8mm
- Standard color: Black Matte
- Material : Original 6463 Aluminum profile

TMAX-S8302

Double Sliding Door Shower Cubicle

- Door opening can be done in dual direction, more humane
- Beveled pulley design, quiet and durable
- Innovative dustproof & silent track design
- Georgian bar design add a rich Nordic minimalist style
- Standard size: 1600x2000mm (customization available on demand)
- Standard glass thickness: 8mm
- Standard color: Black Matte
- Material: SS 304 Stainless Steel/6463 Aluminium Alloy

TMAX-S5851
Swing Door Shower Cubicle

- The narrow all-inclusive design of the frame is simple and stylish
- L-Shaped long handle, parent-child design, suitable for both young and old
- The slender hinges echo the minimalist style
- Standard size : 1500x2000mm (customization available on demand)
- Standard glass thickness : 10mm
- Standard color : Clear Chrome/Black Matte
- Material : SS 304

TMAX-S5151E
Swing Door Shower Cubicle

- Extremely simple product, with elegant framed design, with harmonious matching, high-class and clear
- Back water tank design at bottom of door to completely separate wet and dry areas
- Standard size: 1500x2000mm (customization available on demand)
- Standard glass thickness: 8/10mm
- Standard color: Black Matte
- Material : SS 304

TMAX-S4202

Double Sliding Door Shower Cubicle

- Door opening can be done in dual direction, more humane
- Roller Inclined plane design for noiseless operation and durability
- Innovative dust-removal track wheel design
- Integral buffering and wheel design reduces buffer noise and vibration, and reduces resistance.
- Shell embedded Hanging wheel and handle, trendy and elegant
- Standard size : 1600x2000mm (customization available on demand)
- Standard glass thickness : 10mm
- Standard color : Clear Chrome
- Material : SS 304/8K

TMAX-S4002

Double Sliding Door Shower Cubicle

- Door opening can be done in dual direction, more humane
- Self lubricating totally closed bearing, super quiet sliding
- Glide block design, better for cleaning
- Track appearance design is unique and delicate, with concise and trendy textures
- Square round-angle design handle, safe and comfortable
- Standard size: 1600x2000mm (customization available on demand)
- Standard glass thickness: 8mm
- Standard color: Clear Chrome
- Material: SS 304/8K

TMAX- C 6902
Shower Cabinet with Fan Sliding Door

- Opening method: Shower Cabinet with Fan sliding door
- Standard size: 900x900x1900mm 1000x1000x1900mm
- Standard thickness of galss: 8mm super-strong all-tough ened safety galss
- Standard Color: Clear chrome

Non-standard specifications can be ordered

TMAX- L 9401
Outside Openable Door Shower Room

- Opening method: Rectangular Outside Openable Door Shower Room
- Standard Size: 800x1000x2000mm
- Standard Thickness of galss: 8/10mm super-strong all- toughened safety galss
- Standard Color: Green bronze

Non-standard specifications can be ordered

TMAX- D 5501

Diamond Outside Openable Door Shower Room

- Opening method: Diamond id outside Openable door shower room
- Standard size: 900x900x2000mm 1000x1000x2000mm
- Standard thickness of galss: 8/10mm super-strong all-tough ened safety galss
- Standard Color: Rose Gold in laid with galss

Non-standard specifications can be ordered

TMAX- S 5751

Two fixed one Drop Outside Openable Door Screen

- Opening method: Two Fixed One Drop Outside Openable Door Screen
- Standard size: (1200-1200)x2000mm
- Standard thickness of galss: 10mm super-strong all-tough ened safety galss
- Standard Color: Clear chrome,Matte black, Metallic gray

Non-standard specifications can be ordered

AUTOMATIC SLIDING DOORS

TAITON features Automatic Sliding Doors which are designed for ease and convenience, better aesthetics, secured door entry and above all savings due to thermal management. Automatic Sliding doors can be integrated with various accessories available to operate the door as per the site requirements.

TAITON also offers breakout doors which are highly recommended in emergency exit and escape route doors in Airports, Commercial spaces, hospitals and many other building types.

AUTOMATIC SLIDING DOORS

PREMIUM SLIDE

TAM-PS-01

Available in 4.2mtr & 6mtr Track Length

PANIC BREAK OUT

TAM-PBO

Customized Doors

The full breakout sliding door is specially designed to meet emergency escape requirements. In an emergency, the sliding doors & fixed panels can be pushed straight away to facilitate escape. These doors give an emergency opening of about 85% to 90% of the structure width.

Double-leaf, standard operation

Double-leaf, escape situation

Clear opening width with sliding doors	700-2500mm
Clear opening height	2000-3300mm
Max. clear opening width in break out situation	5000mm

* 12 months warranty

RETRO SWING - SURFACE (Wooden Doors)

Advanced Operating System

High efficient and small drive torque DC brushless motor, gentle opening and closing, smooth braking, energy saving & environmental protection.

Safety

Excellent pinch performance. The door returns back automatically in case of any obstacle or resistance during closing.

Convenient

Modular & compact design, beautiful appearance, easy installation.

Reliable

New drive, high quality DC Brushless motor, gear box helical gears, wheels and high wear characteristics reasonable structural design makes it reliable, quiet operation and longer life

Compatible

Standard configuration can be integrated with variety of additional accessories as per the site requirements.

AUTOMATIC CURVED SLIDING DOORS

Drive Unit

Equipped with Dunker Motor drive unit. Integrated drive module combined with curved hardware realizes the superiority of curved shaped door in terms of structural stability & driving performance.

Exquisite Hardware Design

Design adopts the drive mode of synchronous wheel. Compared with traditional design, it reduce the loss of hardware during transmission, enabling smooth & noise free operation of the door.

Liberty of Design

Design can be customized into Half circles, full circles, ovals, segments, double segments etc.

MANUAL & AUTOMATIC REVOLVING DOORS

Features:

- Offer Impressive aesthetic appearance
- Effectively separate indoor and outdoor conditions
- Minimize building's heating & air-conditioning losses, maximizing energy savings
- Equipped with drive units and sensor systems makes the door operate automatically
- Key switch has 3 functions; night lock, go-stop and continuous revolving
- Disabled access function slow the door speed for young, old & differently abled
- Emergency stop button to stop the door movement in emergency
- Manual doors does not require electric power and will never suffer from severe weather conditions.

Specifications:

Diameter	1800-3600 mm
Height	Max. 2700mm
Door Leaf	3 / 4 leafs
Speed	1-4 rpm

TOUCHLESS HAND SENSOR

TAM-MS-THS ₹ 19,000

Touchless Intentional Sensor for Automatic Doors

Magic Switch is an intentional touchless microwave sensor which reacts to every intentional motion approaching and allowing to activate the door without any physical contact with the sensor.

In addition to the comfort, it offers a Hygienic opening solution for the Hospitals, Hotels, Restaurants, Retail, Pharmaceutical Industries & Logistics.

Features

- Microwave module with an adjustable detection area from 10 to 50 cm
- Ideal Hygienic Solution for the Retail, Pharmaceutical, Chemical & Healthcare sectors.
- Efficient alternative to push-buttons and other manual solutions.
- The microwave technology allows to hide the sensor behind any non metallic material for aesthetics and safety

Technology	Microwave motion sensor
Radiated frequency	24.150 GHz
Radiated power density	< 5 mW/cm ²
Detection range (hand)	+/- 10 to 50 cm if movement towards sensor at 90° (adjustable)
Detection mode	Motion (bidirectional)
Speed of target for detection	Min. 5Hz or +/- 3 cm/s, Max. 200 Hz or +/- 1.2 m/s
Supply voltage	12V - 24V AC ± 10 % 12V - 30V DC -5%/+10%
Mains frequency	50 - 60 Hz
Power consumption	< 1.2 W
Output Max. voltage Max. current Max. switching power	Relay with switch-over contact (free of potential) 48 V AC - 60 V DC 1A (resistive) 30 W (DC) / 48 VA (AC)
Output hold time	0.5 s (in PULSE mode)
Temperature range	-20°C to +55°C
Degree of protection	IP 30 with cable connected IP40 flush-mounted without front face IP52 flush-mounted with front face and silicone seal mounted in surface mount box
Material	ABS/Polycarbonate
Color	White
Dimensions	85 mm (L) × 85 mm (H) × 45 mm (W)

TAM-MS-ZS ₹ 14,000

TELESCOPIC SLIDING FRAMELESS GLASS DOOR SYSTEM

TAITON features A telescopic sliding frameless glass door system is a type of door system that features two or more glass panels that slide horizontally along a track, allowing the door to open and close without a traditional frame. The term "telescopic" refers to the fact that the panels can overlap or "telescope" one another as they slide, allowing the door to fully open with minimal clearance required.

This type of door system is often used in commercial or residential settings where a modern, sleek appearance is desired. Because the door panels are made of glass and there is no visible frame, the system can provide a seamless transition between interior and exterior spaces and allow natural light to flow freely throughout a room.

TELESCOPIC SLIDING FRAMELESS GLASS DOOR SYSTEM

Glass Thickness : 8-12mm

BIOMETRIC & DIGITAL GLASS DOOR LOCKS

NO Glass Cutout Required

TAM-DL-G2G BLACK ₹ 27,500

For Swing Door Lock With Strike Box

TAM-DL-G2W BLACK ₹ 27,000

For Swing Door Lock With Strike Plate

TAM-SDL-W2W-BLACK ₹ 27,500

For Woden Sliding Door

TAM-SDL-G2G-BLACK ₹ 27,500

For Glass Sliding Door

Features of RFID Locks:

- 5 way unlocking - Fingerprint, IC Card Password, Key & Remote Control
- Easy installation, no need Glass Preparation
- Automatic locking function
- Dual combination access
- Touch keypad with backlight & waterproof surface
- LED color screen to view all operations
- USB interface for emergency power supply
- Rotary switch & unlock button inside
- Low battery indicator
- Door bell function
- Suitable for glass door thickness 10-12mm
- Finger print capacity: 100 pcs
- Card capacity: 1000 pcs
- Password capacity: 1000 pcs
- Admissible Temperature: (-20°C to 55°C)
- Power supply - 4 x AA battery (4.5V - 6.5V)

TAM-DL-REMOTE ₹ 5,000
Remote Control

TAM-DL-SUPREMA-R/L-BLACK ₹ 37,500

Digital Biometric Residential Wooden Door Lock

Features

- 6 way unlocking - Fingerprint, RFID Card, Password, Mobile App (Bluetooth), Manual Key & Remote Control (optional)
 - Suitable for Door Thickness – 38mm - 100mm
 - Automatic locking function
 - Door failure alarm/anti demolition alarm
 - Effective unlock time 0.8 seconds
 - Touch keypad with backlight & waterproof surface
 - Voice prompt throughout the whole process
 - Adopt Semiconductor fingerprint for fast recognition Speed
 - USB interface for emergency power supply
 - 304 Stainless Steel Material
 - Low battery indicator
 - Size – 315*75 mm, Net Weight – 6.5 Kg
- Suitable for Security and Wooden Doors
 - Finger print: 100, Password: 10 (6-10 digits)
 - Card capacity: 50, Manual key: 02
 - Admissible Temperature: (-20°C to 60°C)
 - Power supply - 8 x AA battery (Working Volt. - DC 6V)

TAM-DL-SECURA-R/L-BLACK ₹ 33,700

Digital Biometric Residential Wooden Door Lock

Features

- 4 way unlocking - Fingerprint, RFID Card, Password, Manual Key
 - Suitable for Door Thickness – 38mm - 100mm
 - Automatic locking function
 - Door failure alarm/anti demolition alarm
 - Effective unlock time 0.8 seconds
 - Touch keypad with backlight & waterproof surface
 - Digital display throughout the whole process
 - Adopt Semiconductor fingerprint for fast recognition Speed
 - USB interface for emergency power supply
 - Panel Material: Aluminium Alloy
 - Low battery indicator
 - Size – 380*75 mm, Net Weight – 4.5 Kg
 - Suitable for Security and Wooden Doors
- Finger print: 100, Password: 10 (6-8 digits)
 - Card capacity: 50, Manual Key: 02
 - Admissible Temperature: (-20°C to 60°C)
 - Power supply - 4 x AA battery (Working Volt. - DC 6V)

TAM-DL-MICROSEC-R/L-BLACK ₹ 17,000

Digital Biometric Residential Wooden Door Lock

Features

- 5 way unlocking - Fingerprint, RFID Card, Password, Manual Key, App
 - Suitable for Door Thickness – 45mm - 100mm
 - Automatic locking function
 - Door failure alarm/anti demolition alarm
 - Volume Adjustment function
 - Touch keypad with back light & waterproof surface
 - Digital display throughout the whole process
 - Dual verification mode function
 - USB interface for emergency power supply
 - Panel Material: Alufer
 - Low battery indicator
 - Size – 248*60*20 (D) excluding handle
 - Suitable for Security and Wooden Doors
- Finger print: <=100, Password: <=100 (6-8 digits)
 - Card capacity: <=100, Manual Key: 02
 - Admissible Temperature: (-10°C to 60°C)
 - Power supply - 4.5V-6.5V

* 24 months warranty

DIGITAL BIOMETRIC DOOR LOCK

TAM-DL-MINISEC-R/L-BLACK ₹ 25,000

Digital Biometric Residential Wooden Door Lock

Features

- 4 way unlocking - Fingerprint, RFID Card, Password, Manual Key
- Suitable for Door Thickness – 38mm - 65mm
- Automatic locking function
- Effective unlock time δ 0.8 seconds
- Touch keypad with backlight & waterproof surface
- Voice prompt throughout the whole process
- Adopt Semiconductor fingerprint for fast recognition Speed
- USB interface for emergency power supply
- Panel Material: Zinc Alloy
- Low battery indicator
- Size – 355x75 mm, Net Weight – 4.0 Kg
- Suitable for Security and Wooden Doors
- Finger print: 100, Password : 100 (6-8 digits)
- Card capacity: 100, Manual Key : 02
- Admissible Temperature: (-10°C to 60°C)
- Power supply - 4 x AA battery (Working Volt. - DC 6V)

DIGITAL BIOMETRIC DOOR LOCK

TAM-DL-NIRVANA-R/L-GRAY ₹ 68,000

TAM-DL-NIRVANA-R/L-BLACK ₹ 68,000

Password & Fingerprint Wooden Door Lock

Features

- 4 way unlocking - Fingerprint, Card, Password, Manual Key & Mobile App Digital Door Viewer
- Mortise- 60-68mm Center Distance
- SS 304

ACOUSTIC & GLASS MOVABLE PARTITIONS

TAITON features Acoustic Sliding Wall Partitions which are designed as non load bearing sliding and folding walls according to the sound rating required. These can maximize your potential for increased revenue by increasing your available space in completely flexible way.

We offer Acoustic sliding panels suspended from Aluminum track in ceiling to subdivide open areas which is flexible for events like weddings and conferencing simultaneously in a single big hall. We also offer Movable Glass Partition system with streamlined design without any visual obstruction therein. In addition, the movable glass partitions are more transparent where both upper and lower door patches are connected into integrity to ensure stability and smoothness so only one person can complete the whole partitioning process.

MANUAL ACOUSTIC SLIDING WALL PARTITION

SPECIFICATIONS:

- Designed according to the sound rating required.
- Several choices for how the panels stack to the side of opening.
- Top Hung system without the need for a floor track.
- Manually operated Acoustic panels which can be linked together to form an acoustic sliding wall partition.
- High Quality multi-directional roller assemblies ensures smooth and silent movement.
- Panels will seal acoustically to track by sweep seals and to the floor by retractable seals.

STC	Panel Thickness	Max. Height	Max. Panel Width
35 dB	65mm	6mtr	1250mm
45 dB	85mm	12mtr	1250mm
53 dB	100mm	12mtr	1250mm

Semi Automatic & Automatic Acoustic Sliding Wall Partition also Available

PANEL STACKING OPTIONS

Any other panel stacking can be done as per site requirements

Description	Manual partition	Semi-automatic partition	Fully automatic partition

SMART SWITCH FILM

Introducing

Smart film is new electronic controlled optical product, with a scientific name of polymer dispersed liquid crystal film (PDLC FILM). In the switchable privacy film, small droplets of liquid crystal at micron meter level is dispersed in a polymer matrix, which is kept between two films. In order to produce this PDLC film, special process is required.

Applications:

- Corporate Offices
- Airports
- Hotels
- Medical Institutions
- Jewellery Showrooms
- Banks
- Shopping Malls
- Museums
- Residences

FILM PARAMETERS

Test Parameter		State	Results
Optics	Transmittance (parallel light)	Power on	About: 80%(+/-3%)
		Power off	1%
	Haze	Power on	4%
		Power off	90%
	Visual angle	Power on	about: 150°
	Screening of UV Light	Power on	>99%
Power off		>99%	
Screening of IR Light	Power on	>30%	
	Power off	>90%	
Electricity	(Power Adapter) Vop	Power on	60V AC/ 45V AC
	Responsive time	Power on → Power off	200 (ms)
		Power off → Power on	10 (ms)
Power	Power on	about: 5 W/m ²	
Size	Thickness	/	0.4mm
Environment	Operating Temperature	/	-10°C to 60°C
	Storage Temperature	/	-20°C to 60°C
Life	Life time	Power on	more than 50000Hr

* 24 months warranty
