

SMART SHOWER

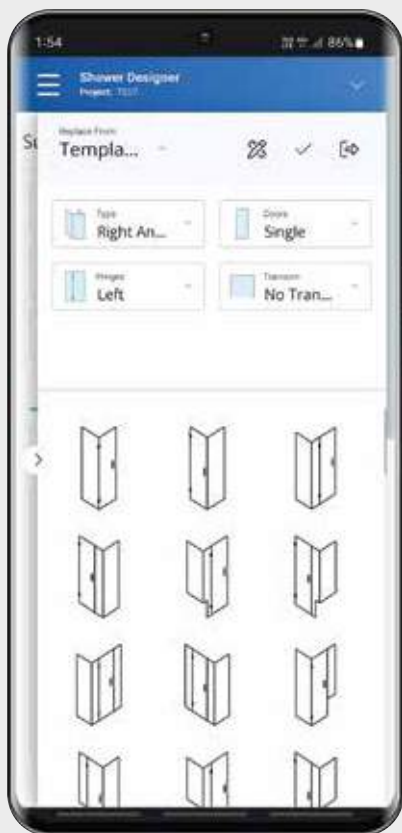

Design, quote and order your
shower from anywhere

Powered by:

Easy to Use

With Smart-Shower you can design a shower using OZONE hardware in minutes.

Smart-Shower is really fast. You select a template, enter site measurements and select your hardware. The templates are just a starting point. You can customise these as you need.

- Range of shower styles
- Choose hinge position
- Pick door layouts
- Include transoms
- Add panels
- Change angles
- Add nibs/notches

It's easy to design any shower using Smart-Shower.

Browser-Based

Smart-Shower works directly in your browser. This means you can use it on your phone, tablet, PC, or Mac, and you can use it anywhere you have an internet connection.

Your team members can have their own login making it easy to access.

The important information resizes so you can design a shower just as easily on your phone as on a desktop.

Fewer Mistakes

Built-in Warnings

Smart-Shower is already set up with your favourite hardware.
It knows where to place it and add cutouts, deductions and uses the technical information for the hardware to get the correct result every time.

Smart-Shower has built-in warnings and pop-ups to make sure your team doesn't make mistakes.

Errors can be fixed easily - just tap on the warning to go straight to the area that needs attention.

This means you can design more showers quickly and avoid expensive reworks.

Clickable pop-up

Fix errors easily
